Socially responsible investing has become a focal point in recent years, with some entities mandated through their investment guidelines to invest a portion or all of their investments in ESG or Impact funds.

LiquidityDirect provides extensive analytics applications to let you understand and interpret how funds are conducting socially responsible investing and how funds can help you better align your investments with your sustainable investing values.

LiquidityDirect's Focused Investing taxonomy focuses on four categories:

- 1. Diversity & Inclusion
- 2. Negative & Positive Screening
- 3. Charitable Donations
- 4. Environmental, Social and Governance

New site design coming soon.

Partnering with leaders in the segment, LiquidityDirect uses the following rankings to ensure that sustainable investments are accurately and reliably labeled. Scores are then normalized across ESG rating agencies to make it easy for you to cross-compare funds and securities.

MSCI ESG Fund Rating:* Designed to assess the resilience of a fund's aggregate holdings to long-term ESG risks. Highly rated funds

consist of issuers with leading or improving management of key ESG risks. The "Fund ESG Quality Score" is assessed using the underlying holdings' overall ESG scores, ratings and rating trends.
The fund ESG Quality Score is then mapped to the AAA—CCC letter-rating categories.

Questionnaire: Fund companies will be able to provide additional context alongside the rankings from the ESG rating agencies.
